### **CHALLENGING THE CRIMINALIZATION OF RAZA AND OTHER OPPRESSED NATIONS:**

In a effort to continue the struggle to end the mass incarceration of Mexicanos/Raza, stop the terrorizing of prisoners, and expose the billions of profits that rich white-capitalists make out of the prison industry –the Chicano Mexicano Prison Project will be holding its “Annual Conference on Raza Prisoners and Colonialism”.

### ***The objectives of the conference will be:***

- (A) Continue building the network of progressive prison rights actives that will be able to challenge the racist-capitalist Prison System.
- (B) Provide a space where –through a process of sharing experiences– activists can learn more about the concentration camps (prisons) in which hundreds of thousands of Mexicanos have been confined.
- (C) Improve our understanding of the many issues related to the colonial criminalization and imprisonment of Raza, Africans, Asians, and other oppressed nations.
- (D) Develop concrete proposals of struggle.
